EXAMINER'S COMMENT

Response to Amendment

1. The amendment filed on December 13, 2004 has been entered. Examiner acknowledges that **claims 1** and **37** have been amended, **claims 36** and **58-64** have been canceled and **claim 65** has been added. Subsequently, **claims 1-9, 37, 40-57** and **65** are under consideration.

Information Disclosure Statement

2. The information disclosure statements (IDS) submitted on October 31, 2003 and April 21, 2004 were filed before the mailing date of the final Office action on September 9, 2004. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements are being considered by the Examiner.

Drawings

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because

- a. the drawing sheets filed on October 27, 2003 and December 13, 2004 were not each labeled as "Replacement Sheet"; and
- b. the drawings filed on December 13, 2004 are photographs that were not accompanied by a petition and the appropriate fee.

4. Color photographs and color drawings are not accepted unless a petition filed under 37 CFR 1.84(a)(2) is granted. Any such petition must be accompanied by the appropriate fee set forth in 37 CFR 1.17(h), three sets of color drawings or color

photographs, as appropriate, and, unless already present, an amendment to include the following language as the first paragraph of the brief description of the drawings section of the specification:

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

5. Color photographs will be accepted if the conditions for accepting color drawings and black and white photographs have been satisfied. See 37 CFR 1.84(b)(2).
6. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement sheets which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments section, or remarks, section of the amendment paper. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). A replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheet(s) must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings.

Art Unit: 3743

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

Allowable Subject Matter

7. **Claims 1-9, 37, 40-57 and 65** are allowed.
8. This application is ready for allowance. However, due to the fact that some claims have been canceled, the remaining claims must be renumbered in accordance with 37 CFR 1.126, which requires the original numbering of the claims be preserved throughout prosecution until the application is in condition for allowance. At such time, the examiner must renumber the remaining claims consecutively in the order in which they appear or in such order as may have been requested by applicant. See MPEP § 608.01(j). Subsequently, **claims 37, 40-57 and 65** have been renumbered as **claims 29, 10-27 and 28**, respectively.
